EMPLOYMENT TRACKER

April 2023

www.pmcresearch.org

AVERAGE NUMBER OF PERSONS RECEIVING SALARY

Growth rate

- In March 2023, the number of persons receiving a monthly salary increased by 3.9% compared to the corresponding period of 2022 and by 8.3% compared to the corresponding period of 2021.
- In March 2023, the share of persons receiving a monthly salary up to 599 GEL amounted to 18.8%, which was 5.1 percentage points less than the corresponding period of 2022, and 9.2 percentage points lower than the corresponding period of 2021.
- In March 2023, the share of persons receiving a monthly salary of 2,400 GEL and more amounted to 21.4%, which was 8.6 percentage points more compared to the corresponding period of 2022, and 8.1 percentage points higher than the corresponding period of 2021.
- In March 2023, the number of persons receiving a monthly salary of 9,600 GEL and more, increased by 29.9% compared to 2022 and 67.5% compared to 2021. The share of persons receiving a monthly salary of 9 600 GEL and more amounted to 3.1% in March 2023.

Source: Revenue Service*

* The data provided by Revenue Service is not final and might slightly increase. (Last viewed on 20.04.2023). The data represents gross salaries.

** The decrease of the share of 0-599 GEL and 600-1199 GEL categories in the Q4 of 2021 and Q4 of 2022 was largely due to a notable number of people receiving the 13th salary in December.

EMPLOYMENT BAROMETER BAG INDEX SURVEY

BAG Employment Barometer¹

- In Q1 of 2023, the surveyed businesses generally had a positive outlook regarding employment for the next three months.
- Overall, in Q1 of 2023, the BAG Employment Barometer amounted to 34.0 points, which is 4.9 points more than in Q4 of 2022.
- In Q1 of 2023, the BAG Employment Barometer was positive for all sectors. In Q1 of 2023, the construction sector had the highest employment barometer indicator with 69 points, and the manufacturing sector had the lowest with 25 points.

Source: PMC Research, BAG

¹The BAG Employment Barometer reflects companies' expectations regarding changes in employment in the next three months. Respondents could describe their plans regarding the number of employees for the next three months as "increasing," "stable," or "decreasing." The balance value of these plans is the difference in the percentage shares of the "increasing" and "decreasing" responses. The BAG Employment Barometer is a weighted mean of the balances in different sectors. The BAG Employment Barometer can be between -100 and +100. -100 means all surveyed businesses expect employment to decrease in the next three months, while +100 means all surveyed businesses expect employment to increase in the next three months.

CHANGES IN THE NUMBER OF EMPLOYEES

BAG INDEX SURVEY

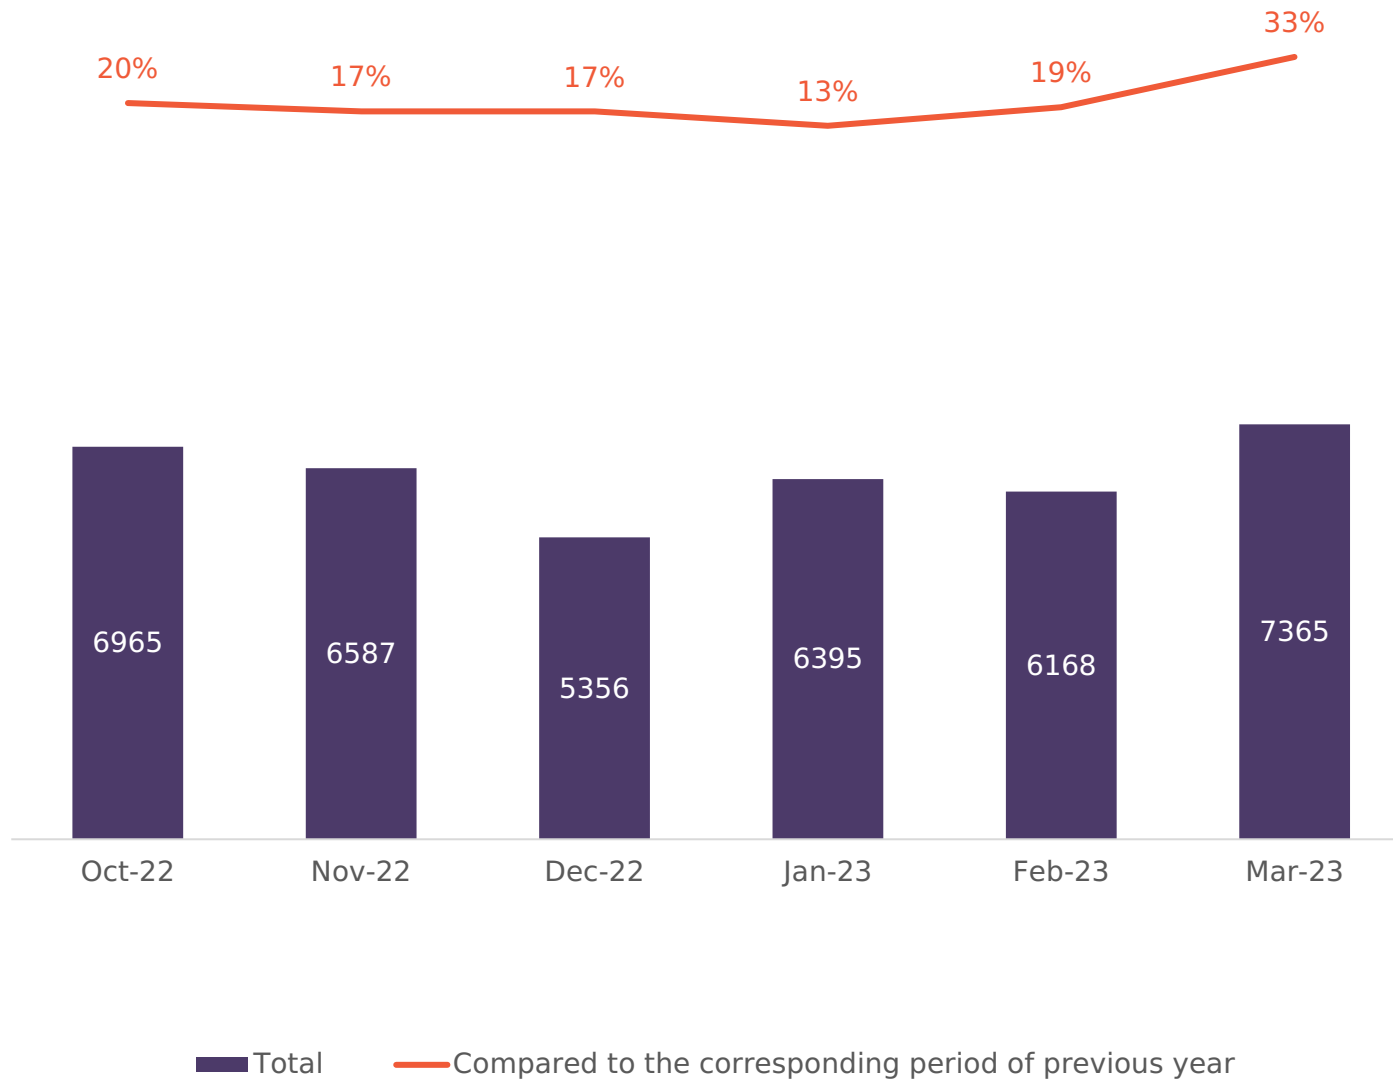

- Overall, in Q1 of 2023, 33% of surveyed companies increased their number of employees, 7% recorded a decrease, and 60% reported no change.
- Overall, 45% of surveyed companies were expecting to increase their number of employees in Q2 of 2023, 5% anticipated a decrease, and 50% were not expecting any changes.
- The most optimistic expectations for employment in Q2 of 2023 are recorded in the construction sector, wherein in Q2 of 2023, 69% of companies plan to increase the number of employees.
